Reception Online Health Assessment – September 2017

Dear Parent/Carer,

Now that your child has started school I'd like to welcome you to the school nursing service, which is here to support you with the care of your child up to the age of 19.

To assist us in giving you the correct support that you and your child need, we'd like you to complete an online health assessment (HAPI) of your child. This enables us to respond to any identified health needs of your child. Further assessments will be offered to children in year 6 and year 9.

The online health assessment, HAPI, asks about several aspects of your child's life that can impact on their health such as lifestyle and behaviour. This enables our skilled team to make an assessment of your child's needs and offer support and advice in areas you identify as a concern.

The assessment is confidential between you and the school nurse team. If necessary we can undertake further assessments and refer you and your child to other specialist children's services. There is further information on our website about the services we offer:

https://www.hct.nhs.uk/our-services/school-nursing

The assessment can be completed from 1st September 2017 and we would ask you to complete by 31st October to enable us to meet any needs your child has.

To access the online questionnaire please follow the link below:
